- Material UI
- Familiar
- Redux
- SASS
- GraphQL

### ■ Tools

- Git
- VS Code
- Sublime Text
- Heroku
- Netlify
- Firebase
- NPM
- Chrome Dev Tools

### ■ Extra Skills

- Adobe Photoshop
- Adobe Illustrator
- Ms Office
- Operating System
- Windows (7, 8 and 10)

## PROJECTS

### 🌐 Volunteer network | 🌐 [Website](#) | </> [Frontend Code](#) | </> [Backend Code](#)

- A full-stack application that allows the client to select the volunteer activities they want to do.
- The client can subscribe and unsubscribe from any volunteer service if he signed in.
- There is an admin panel where the admin can manage user activity and add new events that will show on the homepage.
- Use Rest API and use 3 out of 4 CRUD operations in that application

**Technology Used:** ReactJS, NodeJS, ExpressJS, MongoDB, React Router, Firebase, Heroku, Bootstrap4 etc.

### 🌐 Creative Agency | 🌐 [Website](#) | </> [Frontend Code](#) | </> [Backend Code](#)

- A full-stack agency web application that allows the client to shop for their necessary software service.
- Admin and client can access different dashboards by separating their auth and getting separate data from MongoDB.
- The client can manage his order from the dashboard and also give feedback which will be visible in the review section.
- An admin can add a new service from the dashboard which will be visible in the services section so that a customer can ask for that service.
- Admin can also manage client orders and make someone a new admin.

**Technology Used:** React, Router, NodeJS, ExpressJS, MongoDB, Firebase Auth & Hosting, Heroku, Bootstrap4 etc

### 🌐 Travel Guru | 🌐 [Website](#) | </> [Source Code](#)

- A travel agency website where the client can pick the date and book his / her desirable location to visit.
- The client can book any hotel room in their selected place.
- Before booking, the client must be created an account using email & password or via Google or Facebook account.
- The client can see the details about hotel rooms, prices, and availability on their selected date if he logged in.

**Technology Used:** ReactJS, React Router, Firebase Auth, Material UI, Netlify, Date Picker etc.

## ACHIEVEMENT

### ■ Complete web development course

Programming Hero

June 2020 – December 2020

☛ HTML, CSS, Bootstrap, JavaScript with ES6, React Js, Node Js, Express Js, Redux, MongoDB, Firebase etc

Certificate

### ■ Basic Frontend Web Development Course

It Bari

January 2018 – June 2018

☛ HTML, CSS, Bootstrap, JavaScript etc.

## EDUCATION

### ■ 2020 – Present

**Atish Dipankar University of Science & Technology, Uttara, Dhaka**

Bachelor of Pharmacy (B.Pharm)

### ■ 2015 – 2019

**Institute of Health Technology, Rangpur**

Diploma In Pharmacy

## LANGUAGE

■ **Bangla** - Native Bengali

■ **English** - Full Working Knowledge
